

Longitude and Latitude Battleship

Battleship Directions:

1. **Draw the following ships: 1 Carrier (4 dots each), 2 Destroyer (3 dots each), 2 Submarines (2 dots each)**
2. **Rock, Paper, Scissor to see who shoots first.**
3. **Call out latitude “40 Degrees North Latitude”**
4. **Follow latitude with longitude “160 Degrees West Longitude”**
5. **Mark all misses with an “O” on the intersecting coordinates.**
6. **Mark all hits with an “X” on the intersecting coordinates.**

Below is an example of how to draw each ship.
